Professional Summary

Bilingual (Korean/English) coordinator experienced in managing cross-functional teams, external partner relationships, and full project lifecycles — translating stakeholder needs into actionable plans and keeping delivery on schedule through milestone tracking. Seeking to bring this coordination and data-informed planning background to project coordination and operations roles across industries.

Work Experience

Localization Quality Assurance | **Young Horses** Jan 2023 – Jun 2023

- Reviewed English-to-Korean localization quality for 2 titles (*Octodad*, *Bugsnax*), resolving 50+ quality issues before launch, including subtitles that did not match scene context or character emotion
- Tracked fix, re-test, and approval status for each issue with the development team through final delivery, eliminating unresolved issues that could have blocked release

Game Tester / QA Analyst | **Anthos Capital** Jun 2020 – Sep 2020

Portfolio company engagement; title and product under NDA

- Maintained product stability across a full test cycle by authoring 12 structured test and regression plans.

Project Experience

Project Manager | **DePaul Original Game Studio (University Team Project)** Sep 2022 – Jun 2023

- Delivered 8 major project milestones on schedule across a 10-month cycle by building and running the end-to-end project roadmap and weekly planning cadence for an 11-member cross-functional team (engineering, design, art, writing, and audio).
- Protected delivery timelines through 3+ unexpected resource constraints by re-scoping lower-priority work and resolving cross-team dependencies in real time.
- Identified and corrected recurring schedule risk patterns across 42 planning/review cycles by tracking team velocity and milestone data to flag inefficiencies before they hit deadlines.
