

DO HWI LEE

Producer / Project Coordinator — Game Development

gnyt123456@gmail.com | (82+) 010-5104-4155 | Portfolio: prisoner6278.github.io/Portfolio

PROFESSIONAL SUMMARY

Bilingual project coordinator (English/Korean) with hands-on experience leading cross-functional game development teams through full production cycles. Skilled in Agile/Scrum sprint planning, stakeholder communication, risk management, and QA processes across shipped titles. Demonstrated ability to align teams, prioritize competing demands, and deliver projects on schedule in fast-paced, deadline-driven environments.

WORK EXPERIENCE

Operations Coordinator | Republic of Korea Army Jul 2024 – Jan 2026

Mandatory military service

- Directed time-critical operations under zero-margin deadlines, implementing structured data verification protocols that reduced errors across high-stakes decisions.
- Managed cross-team coordination and information flow within a fast-paced, hierarchical organization, strengthening stakeholder communication and escalation skills directly transferable to corporate project management.

Producer | DePaul Original Game Studio Jan 2023 – Jun 2023

Concurrent with coursework

- Led an 11-member cross-functional team of programmers, artists, writers, and sound designers to ship Final Hour on schedule using Agile and Scrum.
- Planned project milestones, sprint schedules, and the production roadmap for a six-month development cycle, from pre-production through final release.
- Facilitated 12 one-week sprints — including sprint planning, backlog prioritization, and retrospectives — to keep the team aligned and on pace.
- Identified production risks and reprioritized tasks in real time, coordinating cross-functional communication to deliver the project on schedule.

Localization Quality Assurance Specialist | Young Horses Jan 2023 – Jun 2023

Concurrent with coursework

- Partnered with developers using MemoQ to identify and resolve cultural and linguistic localization issues across two shipped titles, Octodad and Bugsnax.

Game Tester / QA Analyst | Anthos Capital Jun 2020 – Sep 2020

Portfolio company engagement; title and product under NDA

- Streamlined the bug triage workflow in Jira by prioritizing high-severity issues and producing detailed reproducibility reports, unblocking engineering teams and accelerating release cycles.
- Authored comprehensive test plans and regression reports that maintained build stability throughout active development cycles.

EDUCATION

Bachelor of Arts, Game and Interactive Media Design

DePaul University, Chicago, IL | Jun 2023
